Projects

Independence Day Animation Project

Technologies: HTML, CSS

- Created a fully animated Independence Day-themed webpage using only HTML and CSS.
- Designed and animated a moving highway, cityscape, and car with rotating wheels using CSS .
- Added a rising and moving sun animation to enhance the visual storytelling.

To-Do List App

Technologies: HTML, CSS, JavaScript

- Built an interactive To-Do List with add, edit, delete, and mark as completed functionality.
- Integrated drag-and-drop functionality for reordering tasks.

Alarm Clock Web App

Technologies: HTML, CSS, JavaScript

- Developed a functional Alarm Clock that displays real-time digital time using JavaScript.
- Implemented custom image changes based on the time of day (morning, afternoon, evening, night).

Paint Clone Project

Technologies: HTML, CSS, JavaScript, Canvas API

- Developed a web-based Paint Clone using the Canvas API for real-time drawing.
- Implemented features like brush size control, color selection, and eraser tool.
- Enabled saving drawings as images for download.
